

DANEBANK SCHOOL

The Principal of Danebank Church of England School, Park Road, Hurstville, advises parents of children from three and a half years of age that particular care and attention will in future be given to the building up of a Kindergarten and nursery class. With that aim in view, a trained and experienced kindergarten teacher has been engaged. She is Mrs. Bower, who has been in charge of Sutherland Day Nursery and Kindergarten, and previously instrumental in establishing two church kindergartens. She was also Assistant Matron of the Child Welfare Department.

New equipment necessary for the training of these young children has been provided, and everything possible will be done to give the proper environment, comfort and attention so that tiny tots will feel quite at home. A large outdoor sand pit has also been installed. Parents desiring to make arrangements for the enrolment of their children are asked to write to the Principal, Mrs. Cowell, for application forms, or attend at the school on the first day of the new term, September 15.
