

UNIVERSITY TUTORIAL CLASS.

A University Tutorial Class, organised by the Workers' Educational Association, is scheduled to commence to-night (Thursday) at the Danesbank School, Park Road, Hurstville. This will be the first lecture of a series of ten, which will be under the tutorship of Miss M. Godfrey, B.A. The subject to be covered is "English Literature." If circumstances warrant it is possible that the course will be extended for a further series of ten. These courses of study in special subjects are specially arranged by the Workers' Educational Association, for the benefit of local residents, both young and old, who are desirous of supplementing their education.
